

## Think of a Number Match

Match each 'Think of a Number' problem to the correct answer  
(the first one has been done for you):

Think of a number ... double it ... add 6 ...  
halve it ... subtract the number you first  
thought of.

You always get 2

Think of a number ... add 7 ... subtract the  
number you first thought of ... subtract 3

You always get 3

Think of a number ... add 5 ... double it ...  
halve it ... subtract the number you first  
thought of.

You always get 4

Think of a number ... add 3 ... double it ...  
subtract 2 ... halve it ... subtract the number  
you first thought of.

You always get 5

Think of a number ... subtract 10 ... double it  
... add 20 ... halve it.

You always get the  
number you first  
thought of

Make up your own 'Think of a Number' problems:

Can you find a 'Think of a Number' problem that always gives you 1?

You always get 1
